Advanced

Advanced is installer's choice at Ultra-Luxe Marassi Al Bahrain Resort

Industry-leading fire protection solutions from global fire systems manufacturer, Advanced have been chosen to protect the prestigious waterfront mall, hotel and serviced apartments development in the Kingdom of Bahrain.

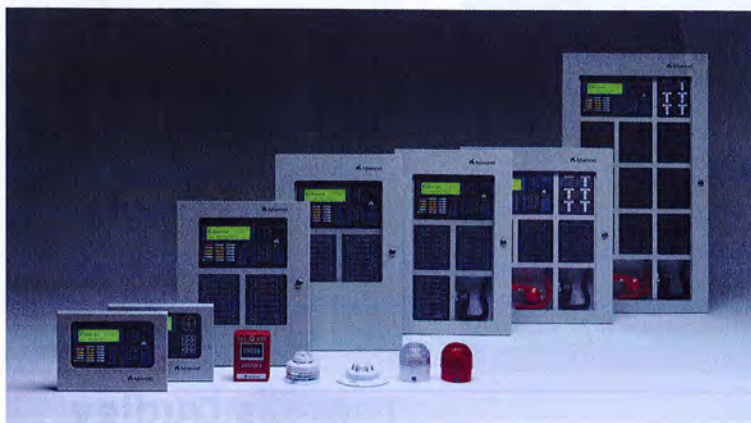

A network of 19 UL-864-approved Axis AX fire panels from Advanced has been installed at the 178,000m² Marassi Galleria shopping mall. A

further network of 14 Axis AX fire panels were also installed at the mall's adjoining waterfront boutique hotel and high-end serviced apartments – the Vida Hotel and Residences.

A combined total of 47 panels comprising 31 4-loop Axis AX panels, two 4-loop Axis AX panels with integrated telephone and voice evacuation systems, 2 mimic panels, two repeater panels and two graphical command centres will form the core of the active fire protection for the \$374m resort, once completed at the end of 2021.

The Bridges, Balliol Business Park, Newcastle upon Tyne, NE12 8EW

www.advancedco.com

In total, the Axis AX panels from Advanced will be linked to almost 11,000 devices including 6,400 smoke/heat detectors and a further 2,823 control/monitoring modules.

The graphical command centres for each network will provide user-friendly system visibility and control, with each fire system being networked with a host of third-party equipment, including lifts, escalators, air handling units, gas suppression systems, CO systems and fan and damper solutions.

Style Partitions

Green fabric for Skyfold vertical-rising partition

Style Partitions is offering a new range of recycled fabric finishes thanks to its exclusive UK partnership with Skyfold. This fully automatic, vertical-rising partitioning system is now available with either a Marin 1300 or Resolve 1301 fabric finish, both of which use between 90-100%, post-consumer recycled polyester. Complementing any interior décor, the sustainable fabric is available in a wide range of contemporary colourways. With environmental impact being a critical aspect of any development, this green initiative is yet another huge leap forward in Style's ability to offer the most sustainable moveable wall solutions in the UK. Many years ago, Style was the first supplier to secure a UK Environmental Product Declaration (EPD) certification for moveable walls.

VORTICE

Sanitising to stay safe with Vortice

VORTICE is promoting several non-touch hygiene products for public wash rooms post-pandemic. To minimise bacterial and virus transmission, the VORTICE S+G soap dispenser is an automatic non-touch electric dispenser which can be used for either soap or antibacterial disinfectant gel. Once hands are clean, the Vort Super Dry range of electric air blade hand dryers is equipped with HEPA filters and a UV germicidal lamp to kill bacteria and virus. For extra safety measures, VORTICE offers the UVLOGIKA SYSTEM which is a germicidal UV-C lamp, ideal for sanitising and disinfecting surfaces. Its radiation quickly eliminates up to 99% of bacteria, viruses and other pathogens.
